A Message to Our School Coordinators

Dear Ma'am / Sir,

Thank you for saying "yes."

Thank you for coordinating COMPUDON Junior in your school. This guide covers what you'll need, your responsibilities, the time commitment, and how your school is recognized for participating

Less than 15 hours, start to finish.

- ✓ Most coordinators complete the entire program in less than 10 hours of coordination, spread across the championship.
- ✓ We provide the messaging templates for emails, WhatsApp, parent communication, FAQs, reminders, and dedicated support phone number, you simply coordinate within your school, we do the rest.

Today's students are growing up in a world where technology influences all aspects of their lives. Cyber Safety has become as important as road safety or more as students spend a lot more time online than on the road. Artificial intelligence is changing the way knowledge is accessed. Information travels across the world in seconds. Opportunities have never been greater but neither have the challenges.

As coordinator, you help students build the confidence to pause before reacting, question before believing, verify before sharing, and choose wisely before acting.

Pause before reacting

Building the habit of thoughtful response over impulsive action.

Question before believing

Developing critical evaluation of information and sources.

Verify before sharing

Checking facts and considering consequences before spreading content.

Choose wisely before acting

Making informed, responsible decisions in digital and real-world contexts.

As coordinator, your contribution includes:

- ✓ Being school's primary point of contact with the COMPUDON Junior team.
- ✓ Helping students and parents understand the long-term value and sign up.
- ✓ Supporting the parental consent process while reinforcing children's privacy.
- ✓ Sharing important updates, and instructions promptly.
- ✓ Encouraging every student to prepare and participate enthusiastically to do their personal best.
- ✓ Celebrating every student's effort while recognizing that the greatest achievement is developing lifelong habits of responsible digital citizenship.

Top Performers Get:

Coordinators crossing 50% participation of eligible participants earn a Plaque, and 75%+ or a national top-10% ranking adds a website feature. Other rewards include:

- ✓ National Coordinator Excellence Award
- ✓ LinkedIn feature
- ✓ Appreciation letter to school Principal
- ✓ School Excellence recognition
