Subject: Invitation to Participate in COMPUDON Junior (Season VII)

Respected Principal,

Launched in 2019, COMPUDON Junior is India's pioneering Digital Citizenship Championship for students aged 8-14 years. As the digital landscape has evolved, so has the program. Today, the program integrates AI Awareness, Media Literacy, Cyber Safety, and Critical Thinking into a structured, ready-to-use learning experience. **For most schools, total coordinator effort is around 05 hours spread across the entire championship.**

Recognizing the importance of Digital Citizenship, CBSE has strengthened its focus on **Digital Citizenship through Circular Skill-81/2025 and Cyber Club initiatives under Circular Acad-39/2026**.

Expert Perspective

> *The content of COMPUDON Junior truly gives you a solid foundation in 21st Century Skills. Students with digital literacy skills will be more competent, more comfortable, and more confident in navigating the 21st century."*
>
